

"Unemployment rates / A Crashed Housing Market World Economic Recession / The Holidays Presures"

What are all these current issues causing?

= A Skyrocketing Suicide Crisis!

ISP is the **only** national organization that assists suicide survivors that do not have insurance, or the money to pay for suicide scene cleaning.

*There are **90 to 100** suicides a day nationally, increasing daily as the recession deepens, and **80%** of these suicides are currently being cleaned up by a family member. If a person experiences the cleaning up of a family member's suicide, they are 75% more likely to commit suicide than the general population.*

With these incredibly disturbing statistics, and isn't it good to know that ISP is there to help. ISP is a nonprofit 501(c)(3) public charity.

Surviving a family suicide is bad enough. Do you really want to make a family experience a double tragedy? Would you like to help? ISP is providing a solution by having our national database of volunteers ready to assist by cleaning suicide scenes, but we need your help now to meet this growing need.

Our volunteers need the materials necessary to clean the scenes. Our **suicide cleaning kits** cost **\$25.00** each, and contain the following goods; *Rubber gloves, shoe booties, large trash bags, bleach, paper towels, peroxide, and spray bottles.*

By donating at least **\$25.00** you will be helping one family not experience a life changing event that will most likely lead to another tragedy. *Be a hero and help a family today.*

How many families will you help?

Our goal is 400 kits to meet the holiday needs this year.

A message from ISP
